Last year, proceeds from the first annual fundraiser were leveraged with support from the Barberton Community Foundation to purchase 18 Chromebooks for community use and to support additional technology training. This year's proceeds will be earmarked for updating building furnishings. More details to come!

We would like to ask that your organization or business provide a prize basket for the raffle or silent auction. This is a wonderful opportunity to support the Library and promote your business.

Thank you for your time and generosity.
